

MINERS' STRIKE SEEMS CERTAIN

Three Days, Leaders Declare, Will
See Every Anthracite Mine
Worker on "Vacation"

STANDS BY AWARD

President Is in Favor of Not
"Yielding One iota" to the
Men of Hard Coal Fields

Scranton, Pa., Sept. 10. — Within three days time every anthracite mine worker will be on a "vacation," according to leaders of the vacation movement. This action, they say, will be the miners' answer to President Wilson's refusal to reopen the anthracite commission, which failed to satisfy the workers.

Joseph Williams, chairman of the joint grievance committee of the Delaware, Lackawanna and Western Coal company, and also leader of the insurgents in the Scranton district, said that the refusal of the President to reopen the case will result in one of the hardest fought industrial struggles ever waged in the country.

"Men who have been remaining at work have been doing so in the belief that the President would reopen the case and make it possible for the mine workers to be granted concessions similar to those won by the bituminous workers," he said. "The boys are now firmly drawn and the mine worker who continues to work under the award as handed down by the majority members of the commission is not true to himself, the union or his family. There are more men out today in the Scranton district than ever and I expect that the whole industry will be tied up in the district by tomorrow or Monday."

Officers of the Miners' union in this district will not discuss the President's action.

Mine Workers' President Retires

Shamokin, Pa., Sept. 10. — C. J. Golden, president of District No. 9, United Mine Workers, declined tonight to comment upon President Wilson's refusal to reopen wage issues in response to the appeal of the scale committee. Golden indicated, however, that he might issue a statement tomorrow.

Leaders of the men on "vacations" declared that the President's action would have no bearing on the present suspension and indicated they would stand more determinedly together than ever. Among the rank and file of idle miners, the President's action came as a disappointment, as it was felt that he would suggest some plan for an amicable adjustment of wage differences.

Defines Government's Attitude

Washington, Sept. 10. — President Wilson defined the federal government's attitude toward the "vacation" strike in the anthracite coal industry in a message today to union leaders, in which he declared that "we could not look the world in the face or justify our actions to our own people and our own conscience if we yielded one iota to the men in the anthracite coal fields."

The message was addressed to Philip Murray, vice president of the Mine Workers and other union leaders, and contained an unqualified refusal by the President to accede to their requests that he bring about a renewal of negotiations with the employers over wage scales.

Citing the history of the strike trouble in the mines and the report of the government board created to fix wage scales whose award the men have refused to accept, the President said the men were "violating contracts entered into between themselves, the coal operators and the government." He expressed appreciation for the stand of the union officials against the strike, but asserted that the miners were "not deceiving anybody" by tactics which had produced a "strike" to matter what name is given it. The sanctity of contract agreements, the President indicated, would be upheld by the United States government in domestic as well as international matters.

Call Policy Committee Together

Hazleton, Pa., Sept. 10. — Acting on the assumption that the press reports of the action of President Wilson in refusing the request of the miners to reopen the wage scale are correct, Thomas Kennedy of this city, president of district No. 7, United Mine Workers of America, after consultation with Vice President Philip Murray of the International organization, called a meeting tonight of the policy committee of the miners. The meeting will be held in this city Monday morning.

The call directs that the men need to take such action as may be necessary in the situation.

Discussing the action of the President tonight, President Kennedy stated the decision reached by Mr. Wilson seemed more an answer to the insurgent element in district No. 1 than a reply to the message sent to the White House Friday by the regular officers of the Miners' union.

The letter of today, he stated, has not answered in any way the reasons advanced by the miners in their message to the President, but is a direct and vigorous reply to the threat the insurgent element of the other dis-

TELLS FAIR CROWDS OF G. O. P. SCANDAL

Cox Reiterates His Charges of a
Republican Corruption Fund
at Spokane Fair

Fair Grounds, Spokane, Wash., Sept. 10. — Speaking at the interstate fair today, Governor Cox said he had come here to tell the people.

"I am a progressive. I am a Democrat in the broadest sense," the governor continued. "I ask you to forget that I am a candidate of a political party. I come to preach progress and the gospel of peace."

"Let us assemble as Americans and not as partisans."

Governor Cox reiterated his attack on the "senatorial oligarchy."

The candidate also went over his charges against the Republican contribution plan and the Republican leaders. He produced as his support the Republican treasurer's official bulletin and the copy of subscriptions to the Republican handbook of William Barnes of New York, whom he dubbed "the St. Paul of the Republican party," and the author of the Republican "Bible" for 1920.

Governor Cox also discussed his charges of the Republican contribution quotas. Assistant Treasurer Blair, the candidate said, testified yesterday that the number of cities allotted quotas was 54 instead of 51 as named by the Governor in his Pittsburgh address.

Referring to denials of his charges before the senate committee, Governor Cox declared that he has the right to insist upon enforcement of laws against perjury.

ACQUIT BERGDOLL GUARD

Court Martial Against Sergeant Having
Draft Evader in Custody Ends

New York, Sept. 10. — Court martial of Sergeant John O'Hare, one of the guards from whom Grover Cleveland Bergdoll, wealthy Philadelphia draft evader, escaped while on a trip to Maryland for his "buried treasure," ended on Governor's Island today when the court failed to order O'Hare taken into custody. Unofficial reports had it that the soldier had been acquitted of a charge of permitting Bergdoll to get away.

Sergeant Calvin York, the other Bergdoll guard, also was believed to have been acquitted.

He was put on trial immediately after O'Hare's case was completed. O'Hare was the only witness to testify at his comrade's trial.

SAY BANK'S FAILURE DUE TO POOR AND SLOW LOANS

Boston, Sept. 10. — The Prudential Trust company, an institution capitalized at \$200,000, with more than \$1,000,000 in deposit in its banking and savings department, was closed today by Bank Commissioner Joseph C. Allen.

Withdrawals which had reduced the deposits by \$1,200,000 in 10 months and loans that were considered both bad and slow were said by the commissioner to have made his action necessary.

John H. H. McNamee, president of the bank, said he expected it would be able to pay its depositors in full.

RIOTERS SLAY CONSTABLE

London, Sept. 10. — A dispatch to the Westminster Gazette, from Dublin, says it is reported that the police in Tullow, county Carlow, where a constable was shot dead yesterday, shot up the town last night and that during the trouble, a number of buildings were set on fire. At midnight, there were terrifying scenes in the town, and some of the inhabitants left the place and spent the night in the open country. When the coroner arrived Thursday to hold an inquest over the body of the constable, none of the jurors who had been summoned obeyed the call.

HARRIES IS COMMANDER

Detroit, Sept. 10. — Major General George H. Harries of Chicago was elected commander-in-chief of the World War military order of the World War at the closing session of the organization's first meeting here last night.

The convention adopted resolutions pledging the membership to fight Bolshevism.

Losses Ground in Wyoming

Wilkes-Barre, Pa., Sept. 10. — Leaders of the insurgent movement who called the "vacation" in the anthracite coal fields more than a week ago, are reported to be losing ground in the Wyoming valley. Officials of the union and coal operators alike reported that all collieries in the Wilkes-Barre district were operating a force only five per cent below normal and that a good tonnage was produced today.

The insurgent forces of the district in the lower end of this district have never been as strong as in the Lackawanna section and the miners hereabouts are producing more coal for that reason.

DEATH MYSTERY PUZZLES POLICE

Olive Thomas, American Movie
Actress, Succumbs to Poison
Probably Taken by Mistake

END CAME IN PARIS

Former American Army Captain
Arrested for Vending Cocaine,
Is Under Suspicion

Paris, Sept. 10. — The French police have begun a thorough investigation into the death of Olive Thomas, an American movie actress, who succumbed this morning to poison, taken, it is said, by mistake, several days ago. The authorities have issued a permit for the embalming of the body of Miss Thomas but have not yet sanctioned its shipment to the United States on board the steamship Mauretania, sailing from Cherbourg, September 12.

Investigation also is being made by the police of sinister rumors of cocaine orgies, intermingled with champagne dinners which lasted into the early hours of the morning, that have been afloat in the American colony and among the habitués of the French cinema world during the past week.

Tonight in Sante prison, the police were closely questioning a man named Spaulding, said to be a former American army captain, who was sentenced to six months in jail last Monday for vending cocaine.

In connection with the death of Miss Thomas, the police say they desire to interview Jack Pickford, a motion picture actor and husband of Miss Thomas, and also a woman friend of the actress, who is said to have accompanied Miss Thomas during the last pilgrimage to the Mt. Martre district Saturday evening.

Mr. Pickford left the Ritz hotel, where he has been stopping and has taken up quarters in the hotel Carlton. He declined to receive visitors today. The physician, who is in attendance of Mr. Pickford, said he was in a very bad stage of health.

HEAVY SHOCKS IN ITALY

No Definite Information as to Loss of
Life in New Earthquake

Rome, Sept. 10. — Recurrence of earthquake shocks in the Emilia district of northern Italy was reported late yesterday.

While the district affected apparently was not so large as that in which Tuesday's tremors were felt, the shocks were described as much heavier.

No definite information had been received tonight as to loss of life or property damage in the new earthquake, but both were believed to be heavy. The towns of Ferrara, Reggio, Tonengo and Cavola were understood to have suffered seriously. In Ferrara, the church of Santa Maria Invado, an 11th century structure, was partially destroyed.

The latest figures on Tuesday's earthquake showed more than 500 dead, possibly 3,000 injured, and between 10,000 and 15,000 rendered homeless. More than 50 cities and towns were stricken.

The Emilia district lies between the Apennine mountains and the Po river, and is heavily populated.

No More Tremors Expected

Florence, Italy, Sept. 10. — Minor earthquake shocks which have been felt since the disastrous tremor of Tuesday morning in the devastated zone north of this city indicate the disturbance is subsiding, according to Father Alfani, director of observatory here.

"The shocks in the present case," he declared, "are to be considered as good omens as indicating that no serious recurrence of the earthquake may be expected."

STEAMER IN BAD FLIGHT

Boston, Sept. 10. — Further efforts were made today to prevent the United States Shipping board steamer, Dewey, from sinking in the lower harbor.

The lighter Salvor is standing by the Dewey, which is leaking badly. Two more pumps started work today after a diver patched up the broken plates.

The Dewey went on the rocks off Graves Light in a dense fog Wednesday.

Word has also been received here that another Shipping board steamer, the Bataan, is leaking and in a dangerous position off the New Foundland coast.

The British mail steamer Portia was making an effort to get the Bataan into port, the report said.

AGROUND ON RUSSIAN COAST

Washington, Sept. 10. — The navy department today expected a more detailed report on the cruiser Pittsburgh, aground three miles west of Libau on the Russian coast.

The department has directed the U. S. S. Frederick to transfer its passengers at Antwerp and go to the assistance of the Pittsburgh.

Admiral Huse, commanding the Pittsburgh, was recently ordered to Danzig to protect Americans there, but later was ordered to return to Revel.

LABOR GATHERING THREATENS RIOT

Climax Comes When Samuel Gompers, Labor Chief, Names
Important Committee

New York, Sept. 10. — Police reserves were called to the Central opera house at midnight tonight to suppress a disturbance which occurred when Samuel Gompers, president of the American Federation of Labor, announced the selection of James T. Holland, president of the State Federation and Peter J. Brad, as members of a committee to draft a constitution for the newly organized Central Trades and Labor council.

The trouble started after the announcement, when Brady's friends and delegates swung toward the platform, overturning chairs and brandishing them in the air. Efforts to restore order by President Gompers, Hugh Franey, Frank Morrison, and other members of the executive council of the American Federation of Labor on the platform, were drowned in the tumult. The police reserves forced their way into the hall, where they found one delegate, Herman Markel, a strike breaker, buried beneath a pile of chairs. Markel told the police he had been assaulted and mobbed. Several times before the police were summoned, disturbances broke out and on one occasion President Gompers called for "two or three six foot labor men" to assist in keeping order.

PASSENGER KILLED BY B. R. T. WORKERS

Stone Thrown at Train Results in
One Casualty; Murder
Charge Preferred

New York, Sept. 10. — Today, Friday, and the 13th day of the Brooklyn Rapid Transit walkout, was marked by the first serious accident since the strike began.

Approximately 35 persons were injured, 15 seriously, when a Convey Island sightseeing bus with 70 men, women and children aboard was in collision with a trolley car on 5th avenue and 68th street, Brooklyn. Police reserves and ambulances were called and first aid rendered to accident victims in the bus and the conductor of the car were held on technical charges.

Shortly before known that Governor Smith intended to take a hand in the strike situation. Announcement here by strike leaders that he would confer next week with Samuel Gompers, president of the American Federation of Labor, brought confirmation from Albany whither William D. Mahon, union head, had gone yesterday.

Earlier in the day, an indictment charging murder in the first degree was returned against nine strikers arrested in connection with the stoning of a train that resulted in the death of one passenger.

SUBPOENA CHICAGO CUBS IN GAMBLING SUIT

Chicago, Sept. 10. — Subpoenas for all members of the Chicago National league baseball club to appear before a grand jury in connection with charges of gambling in baseball which were ordered issued today, are being held up, it was learned tonight.

The Chicago team, now playing in the east, does not return home for more than two weeks and consequently it is possible that only a few players may be called at the present time, it was said.

8-CENT FARE INADEQUATE

Kansas City, Sept. 10. — The Kansas City Railway company, the local traction concern, was placed under a receivership today when Judge Kimbrough Stone, in the United States district court here, granted a petition in the petition, which asserted that the company is indebted to the extent of \$5,000,000, which it cannot pay and that it owes the refining company \$21,404 for fuel. The petition added that fare increases granted "have been insufficient for the company to operate at a profit."

The company now is collecting an 8-cent fare.

MAKES PROCLAMATION

Fiume, Sept. 10. — Gabriele D'Annunzio yesterday proclaimed the independence of Fiume and adjacent territory as "the free state of Quarnero."

The National Council of Fiume resigned and the constituent assembly was immediately summoned to draft and adopt a constitution.

BOY HUNGER STRIKER

Cork, Ireland, Sept. 10. — The father of Saint Hennessy, the 19-year-old lad, who is on a hunger strike in Cork Jail, has asked the nuns to try and keep him alive until it is possible to present to the government proofs of his innocence. These proofs, it is asserted, have been obtained.

STATE WORKERS RAISED QUOTAS

Practice Was Common and These
Amounts, Not Treasurer Up-
ham's, Quoted by Cox

FRICITION IS RIFE

Opinion as to Results of Investi-
gation Is Widely Divergent
Among Committee Members

Chicago, Sept. 10. — Investigation of the Republican campaign to raise funds in Chicago tomorrow, will complete the senate committee's inquiry into the charges of Governor Cox that the Republicans were seeking to corrupt the electorate by soliciting \$12,000,000.

The committee plans to meet again Sept. 22, in some eastern city to be selected by Chairman Kenyon. The Democratic members want to go to New York and pursue the investigation of the Cox charges there, while the Republicans favor removing to Pittsburgh to look into reports that the liquor interests are taking an active part in the Democratic nominee's campaign.

The widely divergent views of the committee members as to the result of the hearing here was shown tonight, when Senator Edge, a Republican of New Jersey, issued a formal statement, asserting the Democrats had failed to substantiate Governor Cox's charges, and Senator Reed, Democrat of Missouri, asserted that any expression of opinion at this time "is indecent."

Senator Reed today asked that Charles Piez, former president of the Emergency Fleet corporation, and now chairman of the Republican ways and means committee in Chicago, be subpoenaed tomorrow to tell of the fund drive in Chicago. The Missouri senator also asked that William Wrigley Jr. and Frederick Courtney Barber, the latter of whom is the 3500 a week director of the Chicago drive, be summoned.

Today's testimony showed that the practice of Republican state workers of hoisting the quotas assigned them by the national committee was general in many states. "A quota," Charles Mavety, former director of the West Virginia campaign, explained, "is a target at which we shoot, but we don't expect to hit it." Mavety and other witnesses told how they sometimes doubted the figures assigned them to raise. They testified that Governor Cox's figures of quotas in many cities were correct, but that these figures were those they personally had set, and not those compiled by Fred W. Upham, national treasurer.

Mr. Upham, recalled to the stand, said he took full responsibility for the defunct plan outlined in "form 101," to set aside Chairman Hays' limit of \$1,000 on contributions, and substitute a limit of \$10,000. The national ways and means committee, however, vetoed the proposal, he said.

Mr. Upham defended the work of Harry M. Blair and other former Y. M. C. A. secretaries who are his assistants.

"You assume responsibility for the 'psalm singers'?" Senator Pomeroy asked.

"I do and I am proud of the work my ex-Y. M. C. A. campaigners are doing," said Mr. Upham. "I believe that in showing here the results of a business man, get the job of raising the Democratic campaign fund, and when they reorganize their finances I think they will adopt our system."

He pointed out that hitherto the east had always paid the bills of both parties. "But up to date, two-thirds of our funds have come from what New York considered is the 'west,'" he said. "That fact, I think, is a pretty good argument that we are getting away from what is called the 'we have heard so much here.'"

Moore Recalled to Stand.

Edmund H. Moore, Governor Cox's personal representative, was recalled to the stand and asked concerning reports that liquor interests in Ohio had supported the Democratic nominee in the gubernatorial campaign four years ago, and charges that the New Jersey liquor dealers were raising funds to assist the Democratic candidate this year. Mr. Moore denied any knowledge of the charges and said the use of his name in a prospectus of the association opposed to national prohibition was unauthorized. He asked if Senator Spencer, his questioner, was "attempting to inject a wet and dry issue into the Presidential campaign."

"The fact that I am known as a strong anti-prohibitionist is no more significant than the fact that George White, chairman of the Democratic national committee, advocated and voted for prohibition when in congress," Mr. Moore said.

He characterized the Anti-Saloon league as a Republican organization and said Wayne B. Wheeler, its general counsel and other leaders were Republicans.

The statement issued by Senator Edge tonight declared:

"I am convinced that the committee is simply becoming the vehicle of all types of insincere political charges and rumors of partisan effect. In the light of the evidence, Governor Cox has been given even more consideration than his irresponsible charges warrant. It makes no dif-

MACSWINEY SUFFERS CONSIDERABLE PAIN

Mind of Lord Mayor, Nevertheless,
Is Perfectly Clear and Active,
Physicians Say

London, Sept. 10. — The Gaelic League's bulletin issued late this evening, says:

"Lord Mayor MacSwiney grows weaker. He suffers much pain, but his mind is perfectly clear."

This was the 29th day of the Lord Mayor's hunger strike. Mary MacSwiney, sister of the mayor, when leaving the prison, this afternoon, told the newspaper men that her brother was able to speak to her this morning. He asked what day it was.

"When I said it was Friday, the 10th," said Miss MacSwiney, Terence said: "It is the beginning of the fifth week of my hunger strike."

Referring to her visit to Portsmouth yesterday, Miss MacSwiney said the labor officials at the trades union congress definitely refused to give her a hearing. She was told by an official that the congress could not help her, and she said she thought they were afraid of her urging direct action for the purpose of obtaining the Lord Mayor's release.

"I did not want to urge direct action," Miss MacSwiney declared. "I desired only to have three minutes of plain talk with the representatives of six and a half million workers of England. I was told that if a strike was called tomorrow they would not be able to get half a million men to quit work."

Mayor MacSwiney is entering the danger stage of his fast, "one of the physicians in Guy's hospital, a recognized authority on metabolism, said today. The physician declared he thought it is extremely unlikely that nourishment in the form of soluble protein was being placed in the prisoner's drinking water, as except in an almost negligible quantity its presence would easily be detected. "The fact that the prisoner is taking water," added the physician, "fortified him to a considerable degree."

MacSwiney's Fast Not Unique

New York, Sept. 10. — Search of scientific records here today revealed several instances when persons have undergone fasts of from 31 to 45 days duration without injurious effects. Some of the fasters were "professionals" and others abstained from feeding.

The longest official authorized fast on record for scientific purposes, according to Dr. Francis G. Benedict of the Carnegie Institution of Boston, was undertaken by Succi, Italian professional faster, in New York, starting November 6, 1890, and lasting 45 days. The man suffered no ill effects, the report says, although he had undergone six previous fasts in Europe, ranging from 40 to 60 days each.

EVANS TO MEET OUMET

Golf Stars Will Battle at Roslyn Today
For This Year's Amateur
Title

Roslyn, Sept. 10. — Charles Evans Jr. of Chicago and Francis Oumet of Boston, each of whom has previously been amateur and open golf champions of the United States, will play tomorrow at the Engineers' Country club for this year's amateur title as the result of their victories in the semi-finals today.

Oumet defeated Robert T. Jones II, the youthful star from Atlanta, Ga., six and five, while Evans eliminated Edward P. Allis, of Milwaukee, former Harvard captain, ten and eight.

Oumet and Evans have met but once before in match play. Last year in the amateur tournament for the national title in Oakmont, Pa., Oumet eliminated Evans in the second round by one up at the home green.

CONDEMNS RADICAL AGITATION

Houlton, Me., Sept. 10. — Radical agitation and the preaching of class consciousness were condemned by Elin H. Hooker, of New York, in a tour of Aroostook county today in behalf of the Republican candidates in the Maine state campaign. "There will never be either morale or the correct spirit of work among the laborers of America," he said, "while the country is filled with radical agitation, the application of whose principles has already wrecked one country."

CELEBRATE ITALIAN EVENT

Fiume, Thursday, Sept. 9. — The ceremony of proclaiming the "Italian" of Quarnero took place today.

ference what witnesses testify under oath if such testimony displeases Mr. Cox, he at once proceeds to vilify them and apparently no one tells the truth but himself. The situation is unparalleled in American politics. Under such circumstances what can possibly be gained by following his so-called lead further Governor Cox owes to the American people to withdraw his extravagant statements or stand convicted of descending to the most despicable type of professional politician's imagination."

When Senator Reed learned of his statement he said in reply:

"I have no comment to make on my investigation at this time. The duty of the committee is to investigate and report to the senate what it finds when the investigation is over and to pursue any other course is in my opinion indecent."

NEGRO PLEDGES GIVEN HARDING

Five Delegations of Negro Republi-
cans from North and South Gath-
er at Nominee's Front Porch

HEAR PERSHING, TOO

General, However, Confines His Re-
marks to Praise for Colored Sol-
diers Who Served in France

Marion, O., Sept. 10. — Five delegations of negro Republicans, representing various organizations of the race in the north and south, gathered at Senator Harding's front porch today and pledged him their support in several hours of characteristic demonstrations and oratory.

In response, the Republican nominee made two speeches praising the loyalty and attainments of the nation's negro citizens and promising that the federal government "will not fail the American negro."

He asked that they make service to the country the every-day standard of their citizenship and declared his abhorrence of the use of "brutal and unlawful violence" against the black race or any other race.

In several private conferences, Senator Harding also heard the grievances of various negro leaders and assured them that he would make a careful study of the situation. Lynching and segregation of negro federal employees were two of the things for whose suppression the visitors made a particular plea.

Baptists Send Big Delegations.

Conventions of negro Baptists in session at Columbus and Indianapolis sent the largest delegations, and a camp meeting spirit ruled the day's celebration. The first group came up singing "Harding Will Shine Tonight" in parody of revival hymn, and "Amen" and "Hallelujah" floated heavenward with "Oh, Boy" and "You tell 'em," as the succession of orators poured out their professions of loyalty to the party of Lincoln and Grant.

Two hundred thousand votes from negro women were promised the senator by the women speakers, one of whom praised his stand for party government and said the women of her race claim representation in the government in proportion to their number.

At both the morning and afternoon celebrations, General John J. Pershing, an overnight guest at the Harding home, was an added attraction that helped stir the enthusiasm of the visitors. To each crowd he made a short speech, praising the service of negro soldiers in the war, but not touching on political subjects.

One of those who conferred with the senator during the day was William Monroe Trotter, of Boston, executive secretary of the National Equal Rights league. He asked that segregation of negro employees of the federal government be abolished and declared afterward that the nominee had given the request appreciative consideration.

Harding Will Soon Give Up His Front Porch Campaign

New York, Sept. 10. — Senator Warren G. Harding, Republican presidential nominee, will receive no more delegations on his front porch in Marion, after September 25, it was announced here today by the New York Salesmen's Harding and Coolidge league, which is affiliated with the Republican national committee. The announcement did not make clear whether Senator Harding will take the stump after that date.

His last front porch address will be made to the Salesmen's league representatives, who are to make a pilgrimage to Marion from New York, September 25, it was added. They will hold a rally here five days earlier to arrange the trip.

CONTINUE WOMAN'S PARTY

Executive Committee of National Organization So Decided at Meeting with Mrs. O. H. P. Belmont

New York, Sept. 10. — Continuation of the National Woman's party with policies the same as used in the campaign for national suffrage, "until all legal action against the victory, instituted by the anti-suffrage, is removed," was decided upon today by members of the national executive committee at a meeting in the home of Mrs. O. H. P. Belmont at Port Washington.

A fund to carry on the work of the party up to and during its annual convention, which will be held "when the victory is safeguarded" is to be raised under the direction of Miss Alice Paul, chairman. The convention, according to Miss Paul, will decide upon a new policy for the party and will organize to campaign for full equality, the fight for which she said "has just begun."

ROOSEVELT SUSPENDS CAMPAIGN

Eastport, Me., Sept. 10. — Franklin D. Roosevelt, Democratic candidate for Vice President, left here tonight for his home at Hyde Park, N. Y., to attend the funeral of his uncle, Warren Delano, Mr. Delano was killed yesterday at Barretown, N. Y., when a horse he was driving became frightened by an approaching train and dashed in front of it.

OFFICIAL RECORD OF ONEONTA CUBS FOR SEASON OF 1920, JUST CONCLUDED

Through the courtesy of E. S. Da-good showing when some of the strong masoch, secretary and treasurer of the Oneonta Baseball Club, The Star is enabled to publish this morning an official record of the 1920 season of Weidman's Cubs. Although this was the first season that the men had played together and naturally there were many obstacles to overcome, the team won 27 games and lost 25, a

SUFFERED SINCE CHILDHOOD

With Chronic Constipation and Headaches. Completely Relieved by "FRUIT-A-TIVES"

OTIS M. BRYANT

49 Anderson St., Portland, Maine.

"I was troubled with Constipation ever since I can remember; as a result, was subject to distressing Headaches and pain in my left side. I would go for two or three days without any movement of the bowels. I chanced to read about 'Fruit-a-tives', in one of our local papers, and began their use about four months ago. Since then, I have been free from Headaches, my bowels have been regular, and from the use of several boxes of 'Fruit-a-tives', I feel that the great benefit I have derived justifies me in pronouncing them a remedy of true and exceptional merit."

OULMET ELIMINATES SCOTCHMAN

Roslyn, Sept. 10.—The last foreign invader seeking this year's amateur gold championship of the United States was repelled yesterday and the new champion is certain to be an American.

Francis Oulmet, of Boston, again saved his country's honor in golf. In 1912, he first came into prominence by defeating the English professionals, Vardon and Ray, for the American open title. Today he eliminated Thomas D. Armour of Scotland, holder of the French amateur championship, five to four.

Fordson

TRADE MARK

Farm Tractor

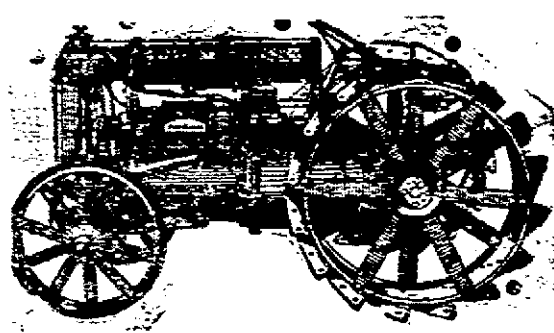

More than 100,000 Fordson tractors have been sold to farmers in the United States. They are helping those farmers do more and better work in less time and at less cost. North, East, South, West—everywhere the Fordson has proven itself a money-maker and a real necessity to the farmer. Besides, it solves the labor problem.

These practical farmers have affirmed the economy—the exceptionally low fuel and operating cost—of the Fordson; its time and labor-saving qualities and its ability to increase production. The Fordson was built to be the most economical tractor. It is compact and devoid of excessive weight. And it is built of the same strong Vanadium steel as the Ford car.

Winter or bad weather does not hinder the Fordson's usefulness. Day or night—twenty-four hours a day if you choose—you can utilize the Fordson.

Only so many Fordsons are allotted this territory. Orders are being filled in rotation. Let us have yours now.

OTSEGO COUNTY NEWS

MRS. NETA BALDWIN.

Wormer Baldwin, widow of Dr. Edwin in Laurens after long illness. Laurens, Sept. 10. — Neta May Van Wormer Baldwin, widow of Dr. Edwin C. Baldwin of New York city, died at her home here Thursday morning at 5 o'clock, following a long illness of Bright's disease. Mrs. Baldwin was 43 years of age.

For 15 years previous to her marriage, Mrs. Baldwin was matron of the Scarlet Fever and Diphtheria hospital in New York city. On Oct. 7, 1903, she married Dr. Baldwin, who died eight years ago.

There will be a private funeral Sunday at the home at 2:30 p. m., with burial at Beach Lake, Penn., Monday, Rev. Dr. Johns, pastor of the First Methodist church of Oneonta, officiating.

Edwin C. Baldwin, her mother and father, Mr. and Mrs. Isaac Van Wormer; a sister, Mrs. Milton Brown, and a brother, Charles Van Wormer, all of Laurens. One sister, Mrs. M. S. Gardner, and brother, O. L. Van Wormer, of Binghamton; and a brother, Herbert Van Wormer of Center Village, also survive.

Teachers Resumed School Work. Prof. F. J. Casey and family moved to Bainbridge last week, where he begins his year's work as principal of the school.

Julia Winsor teaches in Greenport, L. L. Leah Platt in Mineola, L. J. Blanche Cook, near New York; Rena Dorr, of Oxford; Florence Eldred, at Owego; and Winifred Cates, near New York.

Pupils Leaving for School. Young people from here who attend school elsewhere the coming year are Barton Clark, Herman Peas-

he and Mariam Peaslee, at Hartwick Seminary; Corille Winsor, at Bainbridge; Gladys Aldrich, at Utica Conservatory of Music; and Bertha Dorfer, at Oneonta Normal.

Laurens School Opens.

The Laurens school opened Tuesday with the following teachers: Miss Clarissa Coolidge of Vermont, principal; assistant principal, Miss Lelia Hinman, of Mt. Vernon; Intermediate, Miss Mary Ferguson of Middlefield; primary, Miss Augusta Dorfer.

Peet House Sold.

Michael Elwood has purchased the D. S. Peet property on Main street. Mr. and Mrs. Keith Esterline. Sunday, Mr. and Mrs. George Keith entertained the following at dinner: Mr. and Mrs. C. A. Keith and son of Oneonta, Mr. and Mrs. Herbert Wilson of Schenectady, and Mr. and Mrs. D. C. Pasley and daughter, Mulford, of Laurens.

Locals.

Welcome Parish of Oneonta called on friends here Thursday. — Mrs. Claire Wickham and son, John, visited friends in Milford Friday. — Merton Brightman of New Jersey is visiting his brother, Ralph Brightman. — Miss Carrie Richards of Oneonta was entertained at F. M. Newell's Thursday. The ladies of the Methodist Episcopal church will pay dues this month instead of having a supper.

ATTENTION, REPUBLICAN VOTERS

Vote for Dr. Ella A. Boole For United States Senator at the Primaries Tuesday, September 14th.

Dr. Ella A. Boole has entered the Republican Primaries as a candidate for nomination as United States senator. She is also a candidate on the Prohibition ticket. Mrs. Boole's home is in Brooklyn, but perhaps no woman in the state is more widely known than she. For more than twenty-five years she has been identified with the W. C. T. U. of the state, most of the time as its honored president, and for six years was secretary of the Woman's Board of Home Missions of the Presbyterian Church.

She has spoken in all the cities of the state, in every county, and in literally hundreds of towns. She is well informed about legislation; too, for she has appeared at many hearings at Albany before legislative committees, and no advocate of prohibition or public morals has been heard with greater profit.

She was vice-chairman of the New York Division of the Woman's Committee of the Council of National Defense and represented the state at the conference of all state chairmen held in Washington during the war.

She is deeply interested in education, herself a college woman and a former teacher. She is a trustee of her college, the College of Wooster, and the only woman on the board.

As president of the state W. C. T. U. she worked for woman suffrage in New York State, and is committed to improved legislation concerning education, child welfare, the home and high prices, women in gainful occupations, public health and morals and independent citizenship for married women.

It goes without saying that Mrs. Boole believes in the Eighteenth Amendment and in the Volstead Act, as construed by the Supreme Court. She believes in law enforcement and that officials should be held to strict account in the performance of their duties.

Mrs. Boole believes with many Republican leaders, that agreement should be reached upon such reservations to the League of Nations as will enable the United States to enter and so preserve the peace of the world and the 21 was now being waged. Such agreement cannot be reached when party alignment, rather than a desire to advance world peace, is the controlling purpose.

Mrs. Boole is running in opposition to Senator Wadsworth, who was designated by the Republican convention as their nominee. The enrolled Republican women had strenuously protested against his nomination, but the Old Guard triumphed and their protests were unheeded. Now the enrolled Republican women and men have a candidate for whom they can conscientiously vote, for Mrs. Boole stands for the two issues that Senator Wadsworth has opposed — women's political rights and the Eighteenth Amendment.

The nation and the state need the woman viewpoint on many matters of vital interest to the welfare of the nation. Here is an opportunity for the men and women of New York State to vote their convictions.

Let the church people and all those interested in the moral welfare of the country organize their votes and vote solidly on this one issue for a U. S. Senator interested primarily in the moral welfare of the country.

It is a bigger question than party; it is a matter of principle. All enrolled Republicans who so believe are therefore asked to vote for E. A. Boole for U. S. Senator at the Republican primaries, for the first contest is there.

BE SURE TO MARK YOUR BALLOT FOR ELLA A. BOOLE FOR U. S. SENATOR IN THE REPUBLICAN PRIMARY, SEPTEMBER 14th.

SUFFERING OF YOUNG WOMEN

This Letter Tells How it May be Overcome—all Mothers Interested.

Fort Dodge, Ia. — From the time my daughter was 13 years old until she was 16 she suffered so badly each month that sometimes I had to call in the doctor. She had headaches, backache and such pains and cramps that she would have to stay in bed two or three days. She became terribly run down in health and at last a friend who had used Lydia E. Pinkham's Vegetable Compound told her about it and she has used 16 bottles, and we always have it in the house. She feels fine now and she has no trouble at all each month. We always praise it and advise any friends who suffer to use your wonderful medicine. — Mrs. MINNIE MANDERLO, 1005 S. 18th St., & 10th Ave., Fort Dodge, Iowa.

Girls who are troubled as Miss Manderlo was, should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound. Those who need special advice may write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. These letters will be opened, read and answered by a woman and held in strict confidence.

Rev. W. M. Bouton Speaks at Union Services Sunday Evening.

West Oneonta, Sept. 10. — Rev. Webster M. Bouton, the Associate Superintendent of the Central District of the Anti-Saloon League of New York, is a man in the prime of life with a mind richly stored with study and experience. He has been an indefatigable worker against the organized liquor traffic and is known as an exceedingly successful Anti-Saloon League man.

The Rev. Mr. Bouton is a Methodist minister and an honored member of the Wyoming Conference in good standing. He is a logical thinker and a forceful, energetic speaker. He will speak at the Union Service Sunday evening.

TAKES UTICA BRIDE.

Stewart Eason, Prosperous Farmer, Married to Mrs. Della Haug.

Schenectady, Sept. 10. — At high noon on Wednesday, Stewart B. Eason of this place was united in marriage to Mrs. Della Waldron Haug of Utica. The ceremony was performed by Rev. Father Doody, of St. Francis de Sales church, at the rectory at Utica. The attending couple were Norman Eason of Cornell and Miss Anna Eason of this place. The bride was for some time a nurse at the State hospital and later one of those in charge of the colony at Woodside in Maryland. In recent years she has devoted her entire time and attention to private nursing and her services were much sought and very acceptable.

Mr. Eason is a prosperous farmer of this village and well known in community, where he is much respected and esteemed. Mr. and Mrs. Eason left after the ceremony for an automobile trip to Lake George and Thousand Islands. They will make their home here after their return. Their large circle of friends in this village and community extend hearty congratulations and best wishes.

Gardner-Pratt.

Miss Janet Pratt of this place and Jay Gardner of Cooperstown were quietly married on Tuesday. The bride and groom are enjoying a few days' auto trip through Maine and Massachusetts. The best wishes of many friends are extended to the happy couple.

Death of Infant.

Trade Reviewers Lavish in their Praise of J. Parker Read, Jr.'s Powerful Louise Glaum Production — Proclaimed an Epic in Luxury

WID'S DAILY: "Sex" is a picture blessed with a big story; excellent star performance and extravagant production. You won't be able to keep the public from seeing this picture if you displayed a small sign over your door. A wonderful audience picture.... Starting in originality and effectiveness.

EXHIBITORS TRADE REVIEW: "Sex," of which Louise Glaum is the star, is a lavish, arresting and at times startling piece of entertainment which will serve nicely in any theatre. This picture will make the cap public "sit up and take notice." A good story with a highly original twist. The settings are lavish and in harmony with the general theme of the picture and it is evident that expense meant not a thing with the producers. Beautiful gowns and women dazzle the eye and present one glittering spectacle after another. The picture is an epic in luxury.

The Primary Voter

While often stated, the fact will suffer no harm from repetition that the entire system of primary elections is still on trial. From the first there have been many who disbelieved in the theory and ridiculed the practice, and it is unfortunately true that the limited interest which has been taken in the direct primaries even by those who were most zealous for the law is evidence or at least argument on the side of those who would favor their repeal.

A year ago, with an entire city ticket in the field, as well as county and judicial districts, there were only 250 ballots cast in Oneonta by members of all political parties. In 1918, with state and congress and county tickets—a condition not unlike the present—the total vote of all parties was 596, of which, there being more competition, 496 were Republican and 100 Democratic.

The present year, so far at least as the first-named party is concerned, there is fully as lively contest in the primaries as there was in 1918; and perhaps as regards certain candidates it is even more exciting. At the November election last year there was a total of 1,709 votes cast for the highest Republican candidate, from which it would be indicated that there are about that number of Republican voters enrolled for the primaries. If this is the case, and leaving out of account those voters who for various reasons will be unable to vote, a vote for the one party of at least 1,200 would not be unreasonable. The size of the vote will to a large degree determine the extent of the public interest.

To Crimp the Fuel Shortage

The State College of Forestry has sent out an appeal through the press to owners of woodlots throughout the state which should be of interest to residents of rural sections of Otsego and Delaware and only to a limited extent less to city and village residents. It is to the effect that in view of the fuel shortage due to strikes and vacations, every owner of a wood lot should cut a supply of wood sufficient for farm needs between now and snowfall. Instead of cutting the larger trees an effort should be made to cut out the weed trees, those diseased, crooked or overtopping, leaving behind trees of good marketable variety for future sale as valuable timber for industrial uses. In addition to wood for home use, it is suggested that a few extra cords cut by the farmer will build up an emergency fuel reserve which will bring good prices in near-by towns.

In addition, though not in the appeal, it should be suggested that residents of Oneonta and of surrounding villages can help the coal situation by not starting coal fires in furnaces or ranges until the weather makes it absolutely necessary. A little wood fire in the range of mornings gets the breakfast, and perhaps imparts a comfortable heat till the sun gets in his work; or if the season is a little later, a few chunks of wood in the furnace will be sufficient for the day at much less cost than would be required for coal.

Put off burning coal until it really is necessary. A ton or two saved in September and October brings down the bills and helps the general fuel situation.

"BRINGING UP FATHER."

Merritous and Mirthful Play Booked for Monday—Seat Sale Now On.

Merry, merritous and mirthful may well be applied to the latest of the "Bringing Up Father" series of cartoon plays. It is called "Bringing Up Father at the Seashore," and will be seen at the Oneonta theatre Monday, matinee and evening, September 13. Those who have seen and enjoyed the other editions of these popular and side-splitting comedies will no doubt endorse this one as the best of the entire crop. Gus Hill, who took "Father" out of the pages of the newspaper and made him the most talked about celebrity in the world has invested the production with that intelligent and lavish attention to detail which has characterized all of his enterprises and earned for him the reputation as one of the shrewdest and most original purveyors of modern amusement row before the public. While clinging to the set style of entertainment which has marked all of the "Father" pieces in the past, an announcement is made that the fun that occurs from this particular conception is on entirely new lines. An elaborate scenic furniture, new ideas, innovations, jangling songs, musical melodies and a competent cast are assured. The company besides a chorus of twelve of the most beautiful young women vocalists and dancers also includes Pete Currier and Baronesse Blane, portraying the roles of "Father" and "Mother."

The offering is in three acts and from all accounts is easily the laughing hit of the current season.

WHO SEES ONEONTA FAIR?

WHY EVERYBODY—ALL SORTS AND CONDITIONS OF MEN

Already Central New York Prepares to Witness Big Events—Cattle, Horses and Sheep, Floral Hall Displays, Agricultural Exhibits and Special Features Combined With Javes and Floral Parade to Please All Patrons.

The fair season in this state if not more than half over, is at least well under way. The Delaware county exhibitions are finished and the next one to come hereabouts is the Great Central New York, which will open in Oneonta on Monday, September 20, and continue for five days, closing the following Friday. Fully appreciating the importance of the exposition alike as an educational feature and as a community get-together gathering, the Delaware & Hudson company already announces very liberal excursion rates and with special trains it will do its part toward making the exposition the best attended and most interesting in the state.

There still remains among many a belief that the fair is merely agricultural in its purposes; others think that it is chiefly for purposes of entertainment, and still others stress the educational features. In fact it is all of these and more. Its liberal prizes for cattle and horses, sheep and poultry, for grains and vegetables and the like encourage the occupation—now become both science and art—of agriculture. The generous sums offered in Floral hall for products of the needle and of the kitchen, and for art work in great variety, inspire to the best efforts of womankind. The historical collection, which in fact some think a better name than "Old Relics," revives the memory of an earlier day. The races, which in Oneonta are always honest contests of speed, with the best horse winning, and for big purses, draw large numbers of spectators. The Floral parade is an event which never loses its value and interest, and the special attractions on the roof garden, are always unique and wonderful.

These are some of the features which interest everybody. There are of course others and not the least of them is that the fair is a great annual reunion, at which not only present citizens of Oneonta and adjoining counties but many others who formerly claimed this region as home assemble again to look into familiar faces, to listen to remembered voices and to clasp hands with those who perhaps long absent, are still unforgotten. Some days are designated in the fair book as "Old Home Days." In fact all the days are of the "Old Home" variety; and any one will enable the visitors to meet numberless old friends. People like chiefly at any big gathering to meet each other; and there is no better place than at the Oneonta Fair.

Just a word in closing. Despite the fact that prices generally have gone soaring, it costs no more than it did ten years ago to attend the Oneonta fair. The price of admission is still twenty-five cents, and for this small sum—smaller by far in general purchasing power—the visitors sees the big exposition with all its attractions. It used to be that a dozen of eggs; a pound of butter or an hour at most of labor was the equivalent of a single admission ticket. The same products now buy from two to three tickets. It's only the fair management, intent on making the fair educational and entertaining, that keeps to the old figures. There are, somebody remarked yesterday, just two things that one can do at the old prices—mail a letter and attend the Oneonta fair.

LARGE APPLE CROP NOT CHEAP.

Costs of Picking, Shipping, Etc., Keep Prices High.

Ithaca, N. Y., Sept. 10.—Recently gathered figures, tabulated at the state college of agriculture, show that it takes the labor of one man for about 2½ hours to grow and harvest a barrel of apples and that added to this are the costs of the barrel and other items.

While it is difficult to give definite statements applicable to the whole state, it has been found that the farmer in Western New York should receive about \$6.63 a barrel for Grade A. Baldwins. Storage, transportation and other service charges will add to the consumer's price.

Picking this year is likely to average 34 cents a barrel, plus the board of the pickers. Barrels are costing from \$1 to \$1.50, with about three-fourths of the needs now supplied.

Hopping Ends in Schoharie.

Hop growers were considerably stirred by the announcement in newspapers last week that Maynard K. VanDeusen of Cobleskill had sold a quantity of hops for \$2 a pound. Investigation proves that someone jumped at conclusions in reporting the item. VanDeusen offered to sell at that figure to a prospective home brewer, presumably a home brewer, but there was nothing done.

No sales have been made here since the harvest of the crop, but it is said that representatives of the Anheuser-Busch company were in town last week looking over the situation.

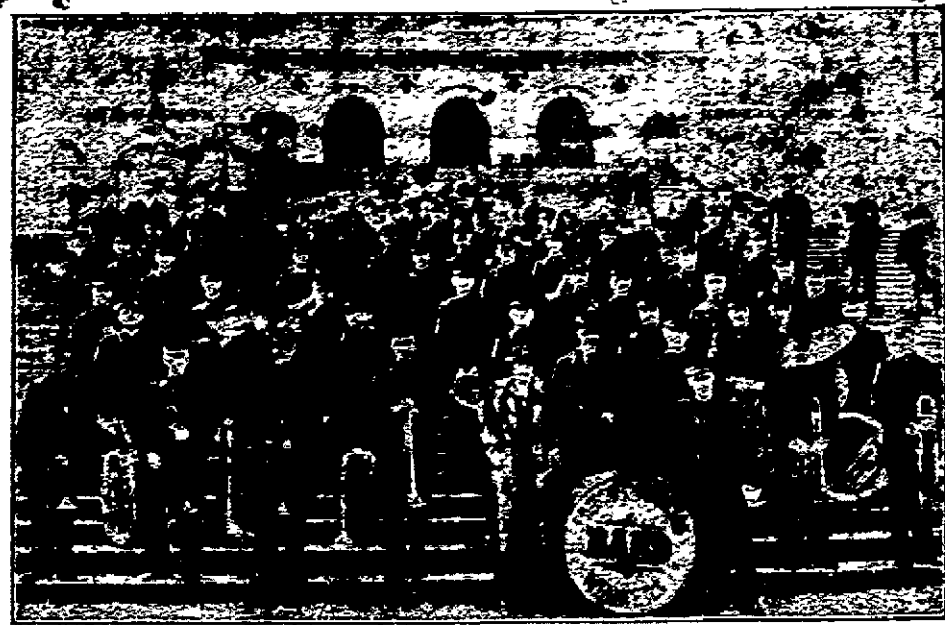

Bavarian brewers in Germany are now allowed to make eight per cent beer and hops from that country are offered at 85 to 90 cents. Reports say that Californias sold at 67½ cents f. o. b. Sacramento. (Gazette.)

COMMENTS OF THE PRESS

The Success of the French Loan.

The oversubscription of the new French \$100,000,000 loan, while remarkable in character, was not unexpected. Subscription books were closed within an hour and syndicate members were denied their applications for increased quotas.

The very favorable interest and redemption terms upon which the bonds were sold, and the fact of their repayment in American dollars, accounted, in the main, for the eagerness of investors. But behind all this was the public confidence in the wonderful progress which, according to all creditable reports, France was making toward rehabilitation, a fact which, combined with its other favorable features, made the loan one of the most inviting foreign investments ever offered the American public. (Binghamton Sun.)

One Thing Certain.

A New York apartment-house advertises several six-room suites at \$17,500 a year. We know nothing about these suites, but we do know that the tenant who occupies one of them doesn't make his money picking cotton or working in a sawmill. (Houseton Post.)

No Whiskey for Themselves.

Under a new ruling of the Bureau of Internal Revenue, physicians are forbidden to prescribe whiskey for themselves. If they are sick or in need of a brace, they will have to go to a brother physician for a prescription. They have an advantage, even at that, over the average citizen. The latter would have to pay for his prescription, but the practitioner does not charge his medical brother for services rendered. (Ulster Press.)

The Disturbing Element.

Both parties are apprehensive lest the hand that rocks the cradle will be the hand that rocks the boat. (Washington Post.)

Explanatory.

"Rye is up 25 per cent." This headline referred to the population of a pretty Westchester town and not to the price of a liquid. (Albany Journal.)

Knocking the Life Out.

English Sugar Ration.

The weekly sugar ration has been raised in Great Britain from eight to 12 pounds. The price, however, has not been lowered and it is doubtful whether the consumption will increase with the 50 per cent advance in the ration. The retail price is about 25 cents gold per pound.

FOR SCHOHARIE MEMORIAL

Figures Encouraging as to Fund Now Raising for Soldier Monument.

Reports on the campaign to raise funds for a memorial monument to the county war dead are still meagre and the outcome of the effort is still undetermined, according to headquarters in Schoharie.

Schoharie leads the towns so far reporting in the amount of her subscription to the fund which will be about \$500. Blenheim reported the one total of \$111.55; Broome gave the good sum of \$105.49.

Middleburg for some reason did not come up to expectations in view of its fine war record, which this campaign was to crown. At present about \$400 has been given. Although the campaign has closed, it is not too late to give and those who have not done so are requested to do so to help bring the total up to \$500.

Although \$5,000 had been set as the goal in the campaign, it was felt that \$3,000 or more would be a good response in view of all the circumstances at this time and a suitable memorial can be obtained for this sum. It will be another week probably before the exact result is known. (Middleburg Gazette.)

BIG CHANCE FOR DAIRYMEN.

Ayer & McKinney Announce Annual Sale of Meridale Jerseys.

The dairymen of Otsego and Delaware counties will be greatly interested in an advertisement which appears on another page and which announces the annual sale of Meridale Jerseys, which will be held Friday, September 17—Friday of next week—at the Meridale Farms in Meridale. As is well known the Ayer & McKinney herd embraces magnificent, pure-bred specimens of best type, descended from a long line of pedigreed animals and themselves of tested quality. Each year's sale is therefore looked forward to with interest and perhaps this season with even more than usual.

Altogether there will be 71 head sold, and as the advertisement says, it will "be the buyer's opportunity to secure at his own price some uncommonly fine cattle." Correct type, robust health and heavy production are features of the Meridale herds.

The Joyce Stores are making a special sale of Canada during the month of August. They have also received a new stock of rugs. Special bargains in every department during the month. e. o. d. 3t

Jones For Congress

Plain Talk to the People Who Actually Live in the 34th Congressional District

One of Senator Jones' opponents, Mr. Clarke, truthfully states the fact that Candidate Truitt has only been enrolled as a Republican for 3 years. This is about the same length of time that Candidate Clarke, a practicing attorney in New York city, has been enrolled as a Republican in this District. New York city has more congressmen than the up-state. They ought not to furnish our congressmen.

SENATOR JONES' REPUBLICANISM

For 25 years he has supported every Republican candidate. He not only voted for McKinley, Roosevelt, Taft and Hughes, but in each campaign he has spoken and toiled as he alone knows how to talk and work.

Who Is the More Qualified to Represent This District in This Crisis?

Senator Jones is the only candidate who has had experience as a law-maker. He has served both in the State Senate and the Assembly. A new and untried man would be useless or nearly so in this crisis. Neither of Senator Jones' opponents have had any experience as law makers.

A vote for Clarke is half a vote for Truitt, the three-year Republican. Vote straight for Jones unless you desire Truitt.

Primary next Tuesday.

WELL-KNOWN FARMER DEAD.

Granville Blanchard, 54 Years Old, Passes Away at Home on South Side.
Granville Blanchard, a life-long resident of the South Side district, died yesterday morning at 5:30 o'clock, at the home of his son-in-law and daughter, Mr. and Mrs. Frank Hanes. Mr. Blanchard, who was 50 years of age, had been in poor health for the past year and more, suffering with hardening of the arteries, combined with the infirmities of age. Funeral services will be held from the late home Sunday afternoon at 1:30 o'clock, standard time. Rev. Dr. C. S. Pendleton, pastor of the Main Street Baptist church, will officiate and burial will be in the Plains cemetery.

Mr. Blanchard, who was born on a farm on the road to Davenport, spent his entire life in that vicinity, and for 50 years he conducted a farm on the Shaw Hollow road a short distance from where it joins the Davenport road. He was a life-long farmer and was one of the best known residents of South Side. Friends, upon hearing of his death yesterday, voiced expressions of appreciation of Mr. Blanchard's sterling worth and many of them spoke of how often they had known him to help out a neighbor in time of need.

More than 50 years ago Mr. Blanchard married Ann Eliza Brewer, also of Oneonta, and he was especially devoted to his family life. The annual reunions of the Blanchard family were always looked forward to with keen pleasure by Mr. Blanchard, and he was an active participant until they were discontinued a few years ago.

Besides his widow, Mr. Blanchard is survived by the daughter, at whose home he died; by two grandchildren, Agnes and Paul Hanes, and by two sisters, Mrs. Imogene Ballantine and Mrs. Ella Baker of Emmett's lake, near South Side. Amos Blanchard of Miller street and Mrs. A. J. Wilson of Church street, this city, are cousins.

CELEBRATE 24th ANNIVERSARY

Dr. E. J. Farley, Pastor of First Baptist Church Given Reception—Pastor Continuously for Twenty-Four Years—About Two Hundred Fifty Present.

Last evening the members and congregation of the First Baptist church celebrated the twenty-fourth anniversary of Rev. Dr. E. J. Farley, who has been pastor of the church continuously since September 1, 1896, the first sermon being delivered from the pulpit of the church on Grove street, now owned by the Lutheran society. Dr. Farley continued his services in this church until the year 1902, when the new First Baptist church was built on the corner of Chestnut and Academy streets. This church was dedicated on November the 11th, 12th, 13th, and 15th. The dedicatory sermon was delivered by Rev. J. W. Phillips, and the prayer was given by Rev. A. B. Coats. Dr. Farley has had many an opportunity to accept other pastorates but has each time decided to remain with the Baptist church of this city, a decision which is appreciated by the congregation.

About 250 members of the congregation were present last evening. The program opened with a piano solo by Mrs. Fred House, which was very much enjoyed. Mrs. Orpha Eldred gave an excellent reading, followed by a piano duet rendered by Mrs. Fred House and Miss Ruth Davis. A delightful violin solo was given by Lloyd Larson and a pleasing vocal solo by Jerry Wilson. Remarks were made by E. D. Tinker, Mrs. Ford Smith and Professor VanDeusen of the High school in behalf of the congregation and the Sunday school. After the program, Dr. Farley spoke briefly, touching on the work of his pastorate and of the present standing of the church, stating that without the co-operation of Mrs. Farley and of the congregation he would have been lost. Following the program light refreshments were served, ending the enjoyable event.

The heartfelt congratulations not only of his church but of all citizens of Oneonta who know his work and worth are extended to Dr. Farley, with the hope that the period of his service may be for many more years extended.

Many Seek College Education.

Rev. and Mrs. F. H. King, Howard and Harold White and Miss Irene Hotchkiss all of West Oneonta, motored to Hamilton this week to consult with President Bryan of Colgate University in regard to the young men entering the Freshman class. The University and village are being taxed to their utmost capacity to take in their effort to accommodate those who are applying for admission. President Bryan stated that the World War had so demonstrated the value of a college education that the universities of our country are receiving an unprecedented number of applications, and Colgate with others will be obliged to turn many away.

THE ONEONTA THEATRE

TUESDAY, SEPT. 14, 2:30, 7, 9.

"Rainbow Girl" & Beam of Sunshine

The heavy showers of yesterday kept no one away from the theatre last night, as the house was filled from orchestra to gallery and the memories of a gloomy day were dispelled by the mirth and pleasure radiating from an excellent musical play, the Rainbow Girl. The play has an interesting plot and the story was beautifully worked out by an excellent cast of good actors and actresses. The music was catchy and the singing and dancing merited the hearty accolades. The comedy was supplied by Sam Sidman of the original cast and his impersonation of the bishop and his entertainment of two maiden ladies of the nobility were so naturally carried out that it would be a misanthrope indeed who would not respond to his humor. All in all, the play is one of the best of its kind that has appeared in this city.

WHEN THE SHADES ARE DRAWN

and the tender ministry of the living must give place to the service of the undertaker, it is a real comfort to surviving friends, to feel sure that the preparation for burial will be conducted with dignity and proper respect for the lately departed one.

Then, too, Modern Science has found a way through the art of Embalming, not only for removing the peril of contagion, but also of restoring the natural flush of health, so that the latest picture in memory will be pleasant to recall.

This process is a part of our service which we will gladly explain to anyone interested.

FACTS ABOUT THE PRIMARIES

Things Which Those Desiring to Vote Should Bear in Mind.

Election officers of the state have prepared some instructions, advice and warnings which will perhaps be of interest to all and sundry who desire to cast their ballots at the primary election next Tuesday. They are as follows:

You can vote on primary day, next Tuesday, if you duly enrolled last fall, stating then your desired party affiliation.

You can not vote primary day if you did not thus enroll—unless you have since become 21 years of age, and have so declared yourself to the county clerk or custodian of primary records.

No provision is made by the law for citizens who have been naturalized since last fall. They can not vote at the primaries.

You can not register primary day for the fall election. The registration days are October 2 and 9 and 15 and 16, the polls to be open then from 7 a. m. until 10 p. m. You can enroll then also for the primaries next year.

The polls will be open primary day, Tuesday, from 7 a. m. until 9 p. m.

Few formalities are necessary in casting a vote on primary day. Women will not be obliged to state their age and no one will have to give much more information than his

Notice of Special Meeting of Stockholders.

By resolution of the Board of Directors, a special meeting of the stockholders of the AMERICAN PERSIAN FUR SHEEP COMPANY will be held in the farm house of the company on the farm in the town of Mt. Vernon, New York, at one p. m. standard (old) time on Saturday, October 24, 1920. The purpose of the meeting is to consider the future of the company and deciding what is best to be done.

Do YOU Earn \$5000 a Year?

If not, then you have only yourself to blame

Almost every person of ordinary education possesses the capacity to earn \$5000 a year. The deciding factor is TRAINING.

Big Salaries Go to Trained Men

The chief difference between the \$1800 clerk and the \$10000 executive is not in the amount of work each does but in the kind of work. The executive handles the larger problems of business and you can eventually put MANAGER on your door in big letters—and draw a manager's pay.

Where to Break In

"Anywhere," a famous general once replied. In the best of battle, "there's splendid fighting all along the line."

If you are a bookkeeper, and by using your evenings wisely over a year's time, you can acquire the knowledge and skill of a business manager at two to five times your present salary— Isn't it worth the effort?

If you are an office man, and in twelve months, eighteen months, or even two years, can get to earn two or three times your present pay, isn't the prize worth working for?

Business leaders are literally searching the country for competent Business Managers, Expert Accountants, Auditors, Controllers, Financial Managers, Cost Accountants, Production Managers, Credit Men, Shipping Experts, Law-trained Men, Traffic Managers, Insurance Commissioners, Experts, Sales and Advertising Managers and Business Correspondents. These are positions that command the large salaries. Big Business is only too glad to pay the price.

Do you lack the necessary training?

You can get it. Thousands of LaSalle students have doubled and tripled their salaries as a result of their mastery of business principles and practices acquired through the LaSalle method of home training.

"We are impressed," writes Wm. Maxwell, Vice President of Thomas A. Edison, Inc., "by any man who has persisted to the conclusion of a correspondence course in some important branch of business training."

The LaSalle method of instruction is intensely practical; it is the solving of actual business problems, under expert guidance and direction. In effect you are working at the side of an able business head, guided step by step by his best judgment and soundly determined laws of business in working out each problem as would arise in his own experience.

LaSalle training is planned for leisure time—evenings at home, after hours, wherever you have a few minutes to devote to reading or writing. LaSalle training is not expensive. It can be purchased on a deferred payment plan that places the investment within the means of anyone of modest income.

LaSalle trained men are holding responsible positions in the executive and administrative departments of practically all the large public utility corporations—the telephone and telegraph companies, street railways, hotels and power corporations. With the American Telephone and Telegraph Company, for instance, are over 2000 LaSalle-trained men. With each of many companies in other large industries, such as the packing industry, the railroads, express companies, automobile manufacturers, electrical manufacturers, banks, food product companies, etc., can be found from 50 to more than 2000 students and graduates.

LaSalle Extension University is the largest business training institution in the world. A LaSalle representative is staying in Oneonta for a few days, and he will explain to you how you can get a LaSalle education in the next twelve months. And can he do more will HELP you to do it.

Determine from the following list the training you are interested in—and

phone or write to Mr. S. W. Hoffman at the Hotel Oneonta, for an appointment NOW. Mr. Hoffman will at least tell you if you are of \$5,000 a year calibre.

BUSINESS ADMINISTRATION Training for Official, Managerial, Sales and Executive positions.

HIGHER ACCOUNTANCY Training for positions as Auditors, Comptrollers, Public Accountants, Cost Accountants, etc.

BANKING AND FINANCE Training for executive positions in Banks and Financial Institutions.

BUSINESS LETTER-WRITING Training for positions as Correspondents, Mail Sales Directors, and executive letter-writing positions.

COMMERCIAL SPANISH Training for positions as Foreign Correspondents with Spanish-speaking countries.

INDUSTRIAL MANAGEMENT EFFICIENCY

Training for Production Managers, Department Heads, and all factory positions.

LAW Training for Bar, LL.B. Degree.

EFFECTIVE PUBLIC SPEAKING Training in the art of successful effective speech for Managers, Salesmen, Franchise Leaders, Politicians, Clubmen, etc.

TRAFFIC MANAGEMENT—FOREIGN AND DOMESTIC Training for positions as Railroad and Industrial Traffic Managers, etc.

SHIPS GUIDED NOW BY "EARS"

Listening Devices in Hulls Tell Channel Route Into New York Harbor.

CAN TELL EXACT LOCATION

Sound Waves Emitted by Energized Cable Laid in Center of Channel Are Picked Up by Audiophones on Vessels.

New York—The principle of "following the green line" used successfully by the management of New York's subway system in handling crowds at congested transfer points, has been adapted in a measure to insure safety to ships at sea around crowded harbors. Instead of a visible "green line," however, a device has been perfected whereby vessels seeking their way into harbor in thick weather can follow with safety a submerged and energized wire.

In the outer reaches of New York harbor, where deep water meets shoals, there begins a marine passage-way known as Ambrose channel. This channel leads up through the Narrows into the inner harbor and to the docks, and in this channel the guiding cable has been laid. Ships properly equipped to take advantage of its guiding powers can follow it through any kind of weather with the same degree of assurance as the passenger who seeks to make his way from Grand Central terminal to Times square.

Guides by Sound Waves.

The device consists of a cable 16 miles long laid in the center of the channel. It is energized with an alternating current from the shore. Ships to take advantage of it must be equipped with audiophones or listening devices attached to the hull. Approaching the channel, the sound waves emitted by the cable can be heard for some distance, and the increasing or decreasing strength of the sound enables the ship to be steered until it is right over the source.

It is then a simple matter to follow its course through the dredged channel despite storm or fog, which would make the marking buoys invisible or would tend to confuse the warning notes of automatic bell and whistle markers.

Can Tell Exact Location.

This cable is but an additional protection for shipping entering American ports. It supplements the radio compass installed and operated by the naval communications service now in successful use all along the Atlantic coast. By the compass ships can ascertain their exact position in any kind of weather. Another protection recently tried out by the navy department is a machine for determining depth of water and proximity of other ships through the readings of sounds from the propellers reflected back from the bottom or near-by bodies.

SUNDAY BASEBALL GETS JOLT

Women Control Jewett, Tex., and Silence Diamond Struggles on Sabbath.

Jewett, Texas.—In Jewett, Texas, where the women rule not only the home but also the city, there will be no more Sunday baseball.

Every city officer of Jewett, with the exception of the chief of police, is a woman, each having been elected last April when the husbands, saying they were disgusted with office, dared the women to oppose them. The women did, with the result that they won out in the voting.

The congregation of the Methodist church recently passed a resolution against Sunday baseball. All the members of the municipal commission, including the mayor—also a woman—are members of the church. That settled Sunday baseball.

Velocity of Light.

Physicists never tire of efforts to increase the accuracy of their knowledge of the fundamental facts of science. A redetermination of the velocity of light by the Fizeau toothed wheel method was made at Nice. These experiments were remarkable on account of the great distance over which the beam of light employed was transmitted. Previously such a beam had been caused to travel about fifteen miles, but on this occasion the reflecting mirror was so placed that the total distance traversed by the beam, going and returning, was fifty-seven miles. The mean of 1100 observations gave for the velocity of light 299,796 miles a second.

Get Lucky Tips in Dreams.

When an Italian has a dream he doesn't go to tell his friends about it for the sake of making conversation, but hurries to get his dream book to find out what the dream portends. The book has a number for everything man wears, has, eats and sees. Things shown in a dream are looked up, and the corresponding numbers are played by the Italian in the week's national lottery. And if he doesn't win, says Kenneth L. Roberts in the Saturday Evening Post, he feels positive that somebody with the Evil Eye has looked at him and broken his chances. The man with the Evil Eye is hated, feared and shunned.

Indian Textile Workers.

In North America alone there are four distinct types of spinning to be found and some half a dozen types of weaving in use by the Indian textile workers. Also they have most interesting devices for warping, for shredding, for pattern-making, and in addition, countless secrets for dyeing.

WHY WE MUST HAVE GREATER REVENUE

Telephone materials cost from 20 per cent to over 40 per cent more than they did in 1914, and with one or two exceptions prices are still climbing. The increase within the past year averages 16 per cent. Here is a table showing the rising prices of six of the materials we use in large quantities.

Materials	Cost 1914	Ratio Cost 1919	Ratio Cost 1920
Cable	100	146	169
Copper Steel Wire	100	141	160
Inside Wire	100	133	233
Poles	100	143	188
Lead Sheeting	100	180	213
Conduit	100	198	214

These advancing costs of materials have affected our business in two ways: (1) by increasing our capital expenditure for new telephone plant and (2) by increasing the current expenses of operating and maintaining our plant.

The money for meeting the current expenses of operating and maintaining our plant and new funds for paying the necessary return to investors who provide the capital for new equipment must come from our revenues. These revenues must also provide a margin of safety upon the increased capital investment, so as to encourage the further investment of money in our business, that alone will enable us to meet new demands for service.

Our revenues have not kept pace with our increased expenses. We cannot keep our plant up to standard, nor can we extend it to meet new requirements for service unless our revenues are sufficient to enable us to meet our financial obligations. Adequate service depends upon adequate revenues.

Shall a Steel Trust Lawyer Represent Us in Congress?

That is the Question That Enrolled Republicans of the 34th Congressional District Must Answer on Primary Election Day, Next Tuesday, September 14th

Because of the normal Republican majority in the 34th District (Broome, Chenango, Delaware and Otsego counties) the man nominated for congress at the Republican Primary next Tuesday is assured of election. There are three candidates for the nomination: John D. Clarke of Delhi, Samuel A. Jones of Norwich and FRANK H. TRUITT, Former Mayor of Binghamton.

John D. Clarke made his fortune as a lawyer for the Steel and Copper Trusts with his home in New York City.

Mr. Clarke has an office at room 2027, No. 42 Broadway, New York City, in connection with the Inspiration Consolidated Copper Co.

Listed as Directors are William E. Corey, former president of the Steel Trust, William G. Rockefeller, John D. Ryan and others.

For the purposes of his campaign, his Committee pictures him as a "regular Delaware County Dirt Farmer," with a farm of 308 acres, as advertised in the Oneonta Star, or of 200 acres, as advertised in the Binghamton Press.

But he has for many years been a resident of New York City, in the practice of law, where he served the United States Steel Corporation subsidiary companies, in whose mills and furnaces half of the men toil twelve hours a day.

The service of his active years has been rendered the industrial octopus which recently was sweepingly condemned for its treatment of labor by the Inter-church World Movement. Read what this report says of the manner in which Candidate Clarke's employer treated labor, as summarized in The Literary Digest of August 7, 1920:

"In the last ten years, the daily hours of workers in the steel industry have been lengthened and not shortened; the bulk of the unskilled labor earned less than enough for the average family's minimum subsistence and the bulk of the skilled labor earned less than enough for the average family's comfort.

"Control of the industry is arbitrary and in the hands of financiers, whose relation to the producing force is remote; the system of arbitrary control extended outside the plants, affecting the workers as citizens and the social institutions in steel communities."

He sold his brains to the trust that made millions of profits out of the war. While you were saving to buy Liberty Bonds, while you were economizing to give to the War Work and Red Cross campaigns, while your boy was on the firing line, the Steel Trust earned \$199,350,680 during 1918, after all expenses and charges were paid.

What Are John D. Clarke's Interests Now? Are They Your Interests, or Are They the Interests of the Steel Trust?

Samuel A. Jones Cannot be Nominated

Mr. Jones has told hundreds of people in Broome County that the outcome of this primary campaign is a matter of indifference to him, so long as Truitt is defeated. If, as Mr. Jones said in the Bainbridge Republican of September 2, "it is a matter of supreme indifference personally

to me whether I win or lose in this contest," why is he helping Clarke to beat Broome County's candidate?

Truitt is Broome County's Candidate

He has lived in Binghamton for more than 40 years, all of the time since he was a young boy. From a small start, he has built

up a business employing more than 100 persons. He is a former mayor of Binghamton. He has made good in every job that he has undertaken. He has the endorsement of the Broome County Republican Committee, composed of 198 men and women chosen by the enrolled Republicans of Broome to represent them as their party organization.

In charging that Frank H. Truitt "is not a Republican," Mr. Clarke's Campaign Committee seeks to indict the Republicanism of every man and woman who is a member of the Broome County Republican Committee, which has endorsed Mr. Truitt as the Republican Candidate.

What Will Your Answer Be, Republican Men and Women, When You Vote Next Tuesday?

If you want a New York City Steel Trust Lawyer as your Congressman, vote for John D. Clarke.

If you vote for Samuel A. Jones, you give half a vote to John D. Clarke. Jones says that he does not care for the office. He will be third in the race. The fight is between Clarke and

Truitt; between the Steel Trust Lawyer, and YOU.

If you want a Congressman who has proved by his record that "he serves the party best who serves the people best" if

you want a 100 per cent sterling Republican, who is recommended to you by the Broome County Republican Committee, be sure to go to the polls early Tuesday

VOTE FOR FRANK H. TRUITT FOR CONGRESS

Signed, Frank H. Truitt Campaign Committee

MAY BE STATE SECRETARY

Many Friends of Mrs. A. L. Kellogg Urging Election by State Federation of Women's Clubs.

The Binghamton Sun of Friday morning contained the following article, which will be read with interest by the members of the Woman's club of Oneonta, and by many other friends in this city:

"Mrs. Abraham L. Kellogg of Oneonta is being persistently mentioned by State Federation club leaders in the Sixth district and other sections, for the office of recording secretary of the New York State Federation of Women's Clubs. Mrs. Kellogg has served on various important committees in the federation. She is at present chairman of the membership committee. Her work as well as her personality has won her many friends among the clubs and federation officers. Her election, if she runs for the secretarial office, is regarded as certain by her friends here. Mrs. Julius H. Potter of Buffalo is being mentioned for the office of first vice president, and Mrs. L. Sherwood Coffin of Brooklyn for third vice president."

The position is an important one, and it calls for just those qualities of tact, judgment, decision and withal of kindly fellowship which distinguished this well-known member and former president of the Oneonta Woman's club. Mrs. Kellogg is well known, not only in her own district, but throughout the state, and she will unquestionably receive hearty support should she consent to have her name presented at the annual meeting to be held at Utica on October 11.

HAVE TO WAIT TO UNLOAD

Shipping Congestion at London Docks Said to Be of an Extraordinary Character.

A writer to the London Times describes the Victoria and Albert docks at Tilbury as being "crowded to their fullest capacity with big ships," many of which "look absolutely dead for the simple reason that they can not be unloaded because there is nowhere to put their cargoes." Of ships carrying Australian meat it is said to be "a common thing to wait anything up to a month for a berth and to lie another month tied up against the wharf, unloading and reloading." Inefficiency of labor is in a large degree responsible, for the average discharging output per shift of 13 men in a nine-hour day has been reduced from 100 to 63 tons. The cause is partly the loss of many good men in the war, partly loading on the job to make work for as many men as possible. Congestion of the ports is attributed to state control over essential imports, to state control over railroads, and to reduction of the hours of labor. By these means the carrying power of ships has been reduced at least 30 per cent below pre-war standards.

Keeping Water Cool.

The only way to keep water cool is to surround it with some material that is a bad conductor of heat, or in other words, does not pass on the heat too rapidly. The poorest conductor of heat is a vacuum or space from which the air has been excluded; hence, a thermos or vacuum flask makes the best container for cold water. Other bad conductors of heat are wood, leather, felt, horn, bone; containers made of or covered with these materials will keep liquids cooler than those made of metal or glass.

She Got Shaved Just Like a Regular Fellow

"Once over," instructed a customer, who climbed into a chair in the barber shop of Snowden B. Maslin, at Chester, Pa. The barber almost dropped his shaving mug when he saw that the "next" was a woman, who had settled her head on the chair just like a "regular fellow."

"Yes, I get shaved once a week. Why shouldn't I if I need the shave?" the woman answered. The woman had her own powder puff and did not want any lotions on her face. She hurried out after paying her bill and giving the barber a 10-cent tip.

Leprosy Ravages Colombia.

The interchurch survey reports that Colombia has no adequate working class because of the ravages of poverty and leprosy among its people. Colombia is rich in platinum, gold, silver, coffee, copper and other mineral and vegetable resources.

TERM THAT BANISHED ANGER

Appellation Bestowed on "Bachelor Maids" Put Further Animosity Out of the Question.

The two Elton sisters, age thirty and thirty-two and very successful business women, live next door to the Smith sisters, about fifty and fifty-two, who are also retired and given to the occupations of crocheting and quilt piecing. The Elton sisters speak of themselves as "old maids," and the Smith sisters as "pesky old maids," in order to distinguish between them. Also they are given to much pitying of the second-class ladies.

But the other evening one of the Elton sisters, clad in a bungalow apron, was out sprinkling the lawn. As she moved around the house she heard the Smiths in conversation. "Yes, sister, age has its compensations," one was saying. "Now look at those girls next door. They no sooner get home than they get into those aprons, so scanty that they are immodest. Of course, they're just kids, but still—"

That was enough for Miss Elton. With a rust she was in the house. "Oh, Grace," she told her sister, breathlessly, "those Smiths are real nice. We've got to stop calling them 'pesky old maids.'"

And now generously the Eltons speak of them as "the other old maids."

The Crown.

The crown as a symbol of royalty was first introduced to Europe by Alexander the Great, who followed the Persian usage.

Muscle Massage in Rickets.

As an aftermath of undernourishment during the war period, rickets has become a common disease among children in Germany. To stimulate the flabby muscles of these little patients, without risking malformation of the softened bones, many curious devices have come into use, according to an illustrated story appearing in the August issue of Popular Mechanics magazine. In treating the jaw and neck muscles, for example, the subject is laid on an inclined board, while the nurse stands at the head and manipulates a harness of two straps.

Never ask a kiddie what he wants for lunch!—serve Kindergarten Sandwiches

They make every lunch a "surprise." With some fancy-shaped cutters in the kitchen and this recipe your boy will eat his way to rosy cheeks and stalwart health, and find delight in every bite:

Cut white Bread and dark graham Bread in thin slices. Shape with cutters, having two pieces each of white and of graham Bread of the same shape. Lightly spread half of the Bread with well creamed butter. With smaller fancy shaped cutter, remove centers from unbuttered graham and white pieces.

Place graham Bread centers in white Bread rims and white Bread centers in graham Bread rims. Place decorated pieces with white rim on the corresponding piece of graham Bread and the decorated pieces with graham rim on corresponding pieces of white Bread.

For a variety, use cutters that are square, oblong, triangular, elliptical, fluted or outlet shape. For the centers, use tiny rounds, or animal, flower, or other fancy shaped cutters. A circle of dark and one of white Bread may be cut diagonally three times and one-half the sections of each color to put together alternately on a plain circle of Bread.

Add a juicy orange or rosy apple, and you have a hearty, well-balanced lunch.

Of course, to get perfect sandwiches, you must start with perfect Bread—the wholesome, rich-flavored loaf that assures vigor as well as enjoyment. That's
